SPECIALIZED EMPLOYMENT SERVICES

MOST SERVICES PROVIDED AT NO CHARGE

CAREER SOLUTIONS IS YOUR PARTNER FOR SUCCESS

Receive individualized training and services designed to meet YOUR career needs and choices. We assist individuals with a wide range of functional skills and abilities.

Comprehensive Career Placement Services

Career Solutions assists individuals with disabilities to reach their highest potential in their chosen field or job. We accomplish this through job and skill assessment, job readiness preparation, and employment support both on- and off-site.

JOB SEEKERS

Individuals who receive employment services from Career Solutions work with a dedicated staff of professionals who provide customized support for the individual's career needs. Job-seekers possessing competitive work skills often begin working with a job developer to seek employment right away while others benefit by first receiving specialized training.

Some job seekers perform on-site assessments or "job try-outs" to see if a particular position or occupation is of interest to him or her or within his or her ability before seeking employment in that field. INFORMED CHOICE is key to success!

STUDENTS AND PARENTS

By partnering with local school districts, Career Solutions provides a bridge between pre-vocational training and adult career placement services. Students obtain marketable job skills through on-site programs and community-based activities.

EMPLOYERS

On- and off-site job support is available 24 hours a day-- 7 days a week for individuals who have been hired but need follow-up services. Career Solutions staff members work with employers to identify and implement job accommodations, work-site modifications, natural support within the work environment, and Americans With Disabilities Act (ADA) requirements. Career Solutions often performs job-site analyses or employer education programs on topics concerning disability issues. Employers may qualify for the federal Work Opportunity Tax Credit (WOTC) when hiring an individual with a disability.

EMPLOYER ADVISORY COUNCIL

To continuously improve and enhance the employment services offered by Career Solutions, we established an Employer Advisory Council in 1985. The Council is comprised of area business professionals with whom we meet regularly to share information about industry- and employment-related trends, current labor market conditions, job skills training and employment opportunities for workers with disabilities. The Council guides our staff members in the development of new programs and the enhancement of existing ones.
